Shipping Price: _____
(Delivery Fee)

Deposit Received: _____
(Non Refundable)

WA State Tax: _____

Balance Due: _____

Paid in Full: _____

Buyer and Seller agree as follows:

1. A non-refundable deposit is required to hold a puppy for buyer. (Please check with seller, as different litters require different amounts for deposit.)
2. Puppy is believed to be in good health and will be up to date on vaccinations and worming by the time it is picked up by the new owner. **(See record of wormer and vaccination above.)**
3. **Health Guarantee:** For purposes of this agreement, buyer, at buyer's sole expense, may have the puppy examined by a veterinarian of buyer's choice. If the veterinarian discloses in writing which is signed by the veterinarian and provided to the seller, any problem with the health or temperament of the puppy within 72 hours of signing of this contract or receipt of puppy, buyer may be eligible to return puppy, at buyer's expense, for a partial refund of the purchase price **(puppy deposit is non-refundable)**, less any shipping expenses paid by seller. Thereafter, buyer's right to refund, as set forth in this paragraph, will terminate. Seller is not liable for any costs incurred by buyer for any treatment rendered as a result of said problem.
4. Buyer agrees to maintain puppy in good health by providing preventative health care. **(Please read the informational sheets included in buyer's packet upon purchase.)**
5. Buyer understands and agrees to hold seller harmless from any and all claims resulting from injuries, losses and damages of any kind, including, but not limited to, direct, special or consequential, which may arise out of, or result from, any act of puppy and/or buyer.
6. This contract applies to the parties described herein and is not transferable to any other party.
7. Do not feed dog/puppy food or treats with Corn or Corn products to your Labrador, they are not good for your dog. Read the ingredients list of all dog food before purchasing. Your dog needs meat based protein.
8. Until your puppy is fully grown it is a good idea **not** to take them for long runs especially on hard surfaces. Remember your puppy is still growing and this can cause them to have joint problems later on.
9. Change your puppy to dog food if you notice that they are growing at a fast rate. This will help them to grow at a slower rate and their bones and joints will be stronger.

Buyer has carefully read and fully understands this agreement and agrees to each and every term set forth herein and further acknowledges that seller has given buyer fully executed copy of agreement.
